## **Case Study: Visibility on Agricultural Products**

Rich Harvest Agricultural Product supplies agricultural products to restaurants, supermarkets and hotels in Hong Kong and Macau every day. Fresh vegetables are harvested in Mainland China and imported to both locations through Guangzhou distribution centre.

## **Project Objectives**

In order to stay proactive, Rich Harvest has approached GS1 Hong Kong to aim at deploying a global standards based traceability solution (named as ezTRACK) to achieve the following:

- 1) To achieve product traceability from farm to fork
- 2) Enhance supply chain visibility
- 3) Uplifting product brand image & consumer trust
